

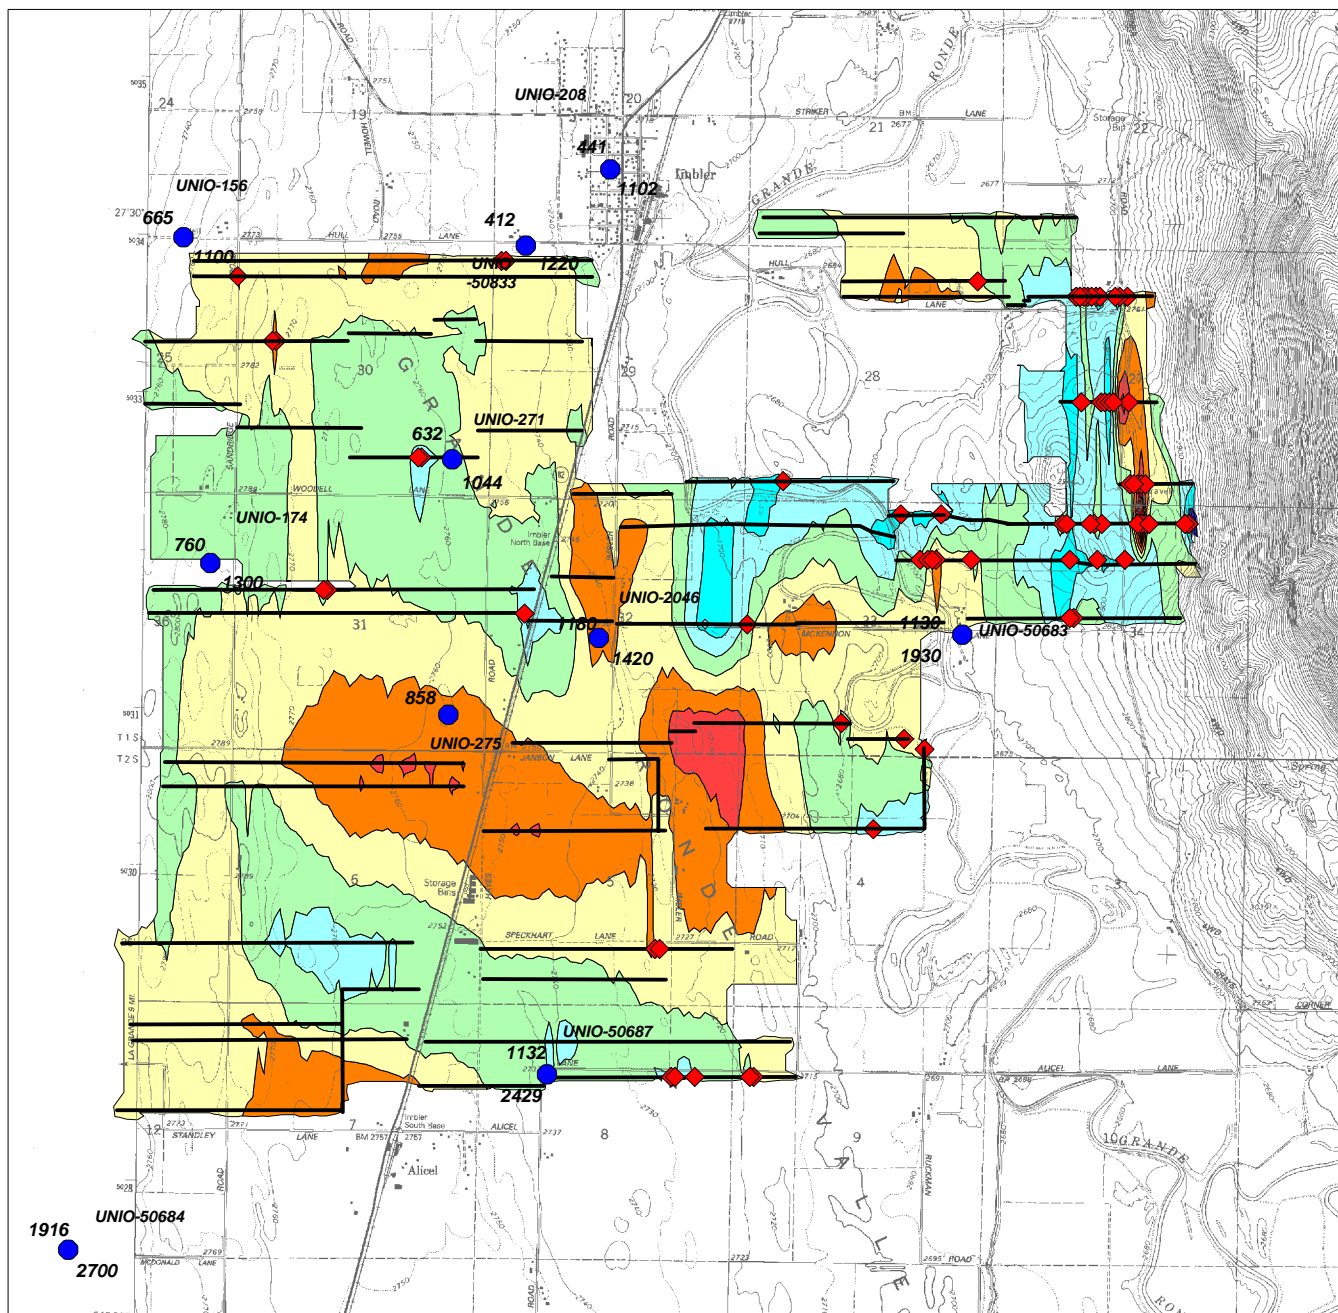

Figure 7. Geomagnetic Map of a Portion of the Imbler Quadrangle, Union County, Oregon

Scale 1:48000

Deep water well, with depth in feet to volcanic basement (blue) and depth in feet to the top of the Grande Ronde Basalt (yellow)

Survey Line, diamond marks change in gradient of > 50 gammas

Relative magnetic intensities; contoured at 100 gammas. Brown colors indicate relative magnetic highs. Blue colors indicate relative magnetic lows.

Portion of quadrangle shown above
