- 1.) With the exception of a single Microsoft Word file, all the files on this CD-ROM are in a PDF format that can be viewed using the Adobe Acrobat reader. Use either version 5.0 or the most recent version of the Adobe Acrobat reader. To download the reader, go to the following web site:  
<http://www.adobe.com/products/acrobat/readstep2.html>. You can also reach the download page for Adobe Acrobat by typing "Adobe Acrobat Reader" into the search field for any web browser.
- 2.) To get started, go to your CD-ROM and click on "Tsunami Guide". Then click on the "Start Here Page" file. This file contains a series of questions that will help you identify where to begin in preparing a tsunami plan for your lodging facility. By clicking on the red boxes in the answers to each of the questions, you will open files of tsunami and preparedness information.
- 3.) When you want to return to the Start Here page, click on the line of the blue box surrounding the words "return to Start Here page". This will close the file that you are presently viewing and return you to the top of the Start Here file.
- 4.) This CD-ROM is intended for use on IBM computers that use the Windows operating system, or on Macintosh computers utilizing the 10.0 or later version operating system. If you have questions or comments about this CD-ROM or its contents, please call the Oregon Dept. of Geology and Mineral Industries at 503/731-4100.
- 5.) If you are not able to move around the files using the method described above, the following is a list of the files and file folders as they appear on this CD.
