

Preliminary Geologic Map of the Coburg Quadrangle, Lane County, Oregon. Plate 2

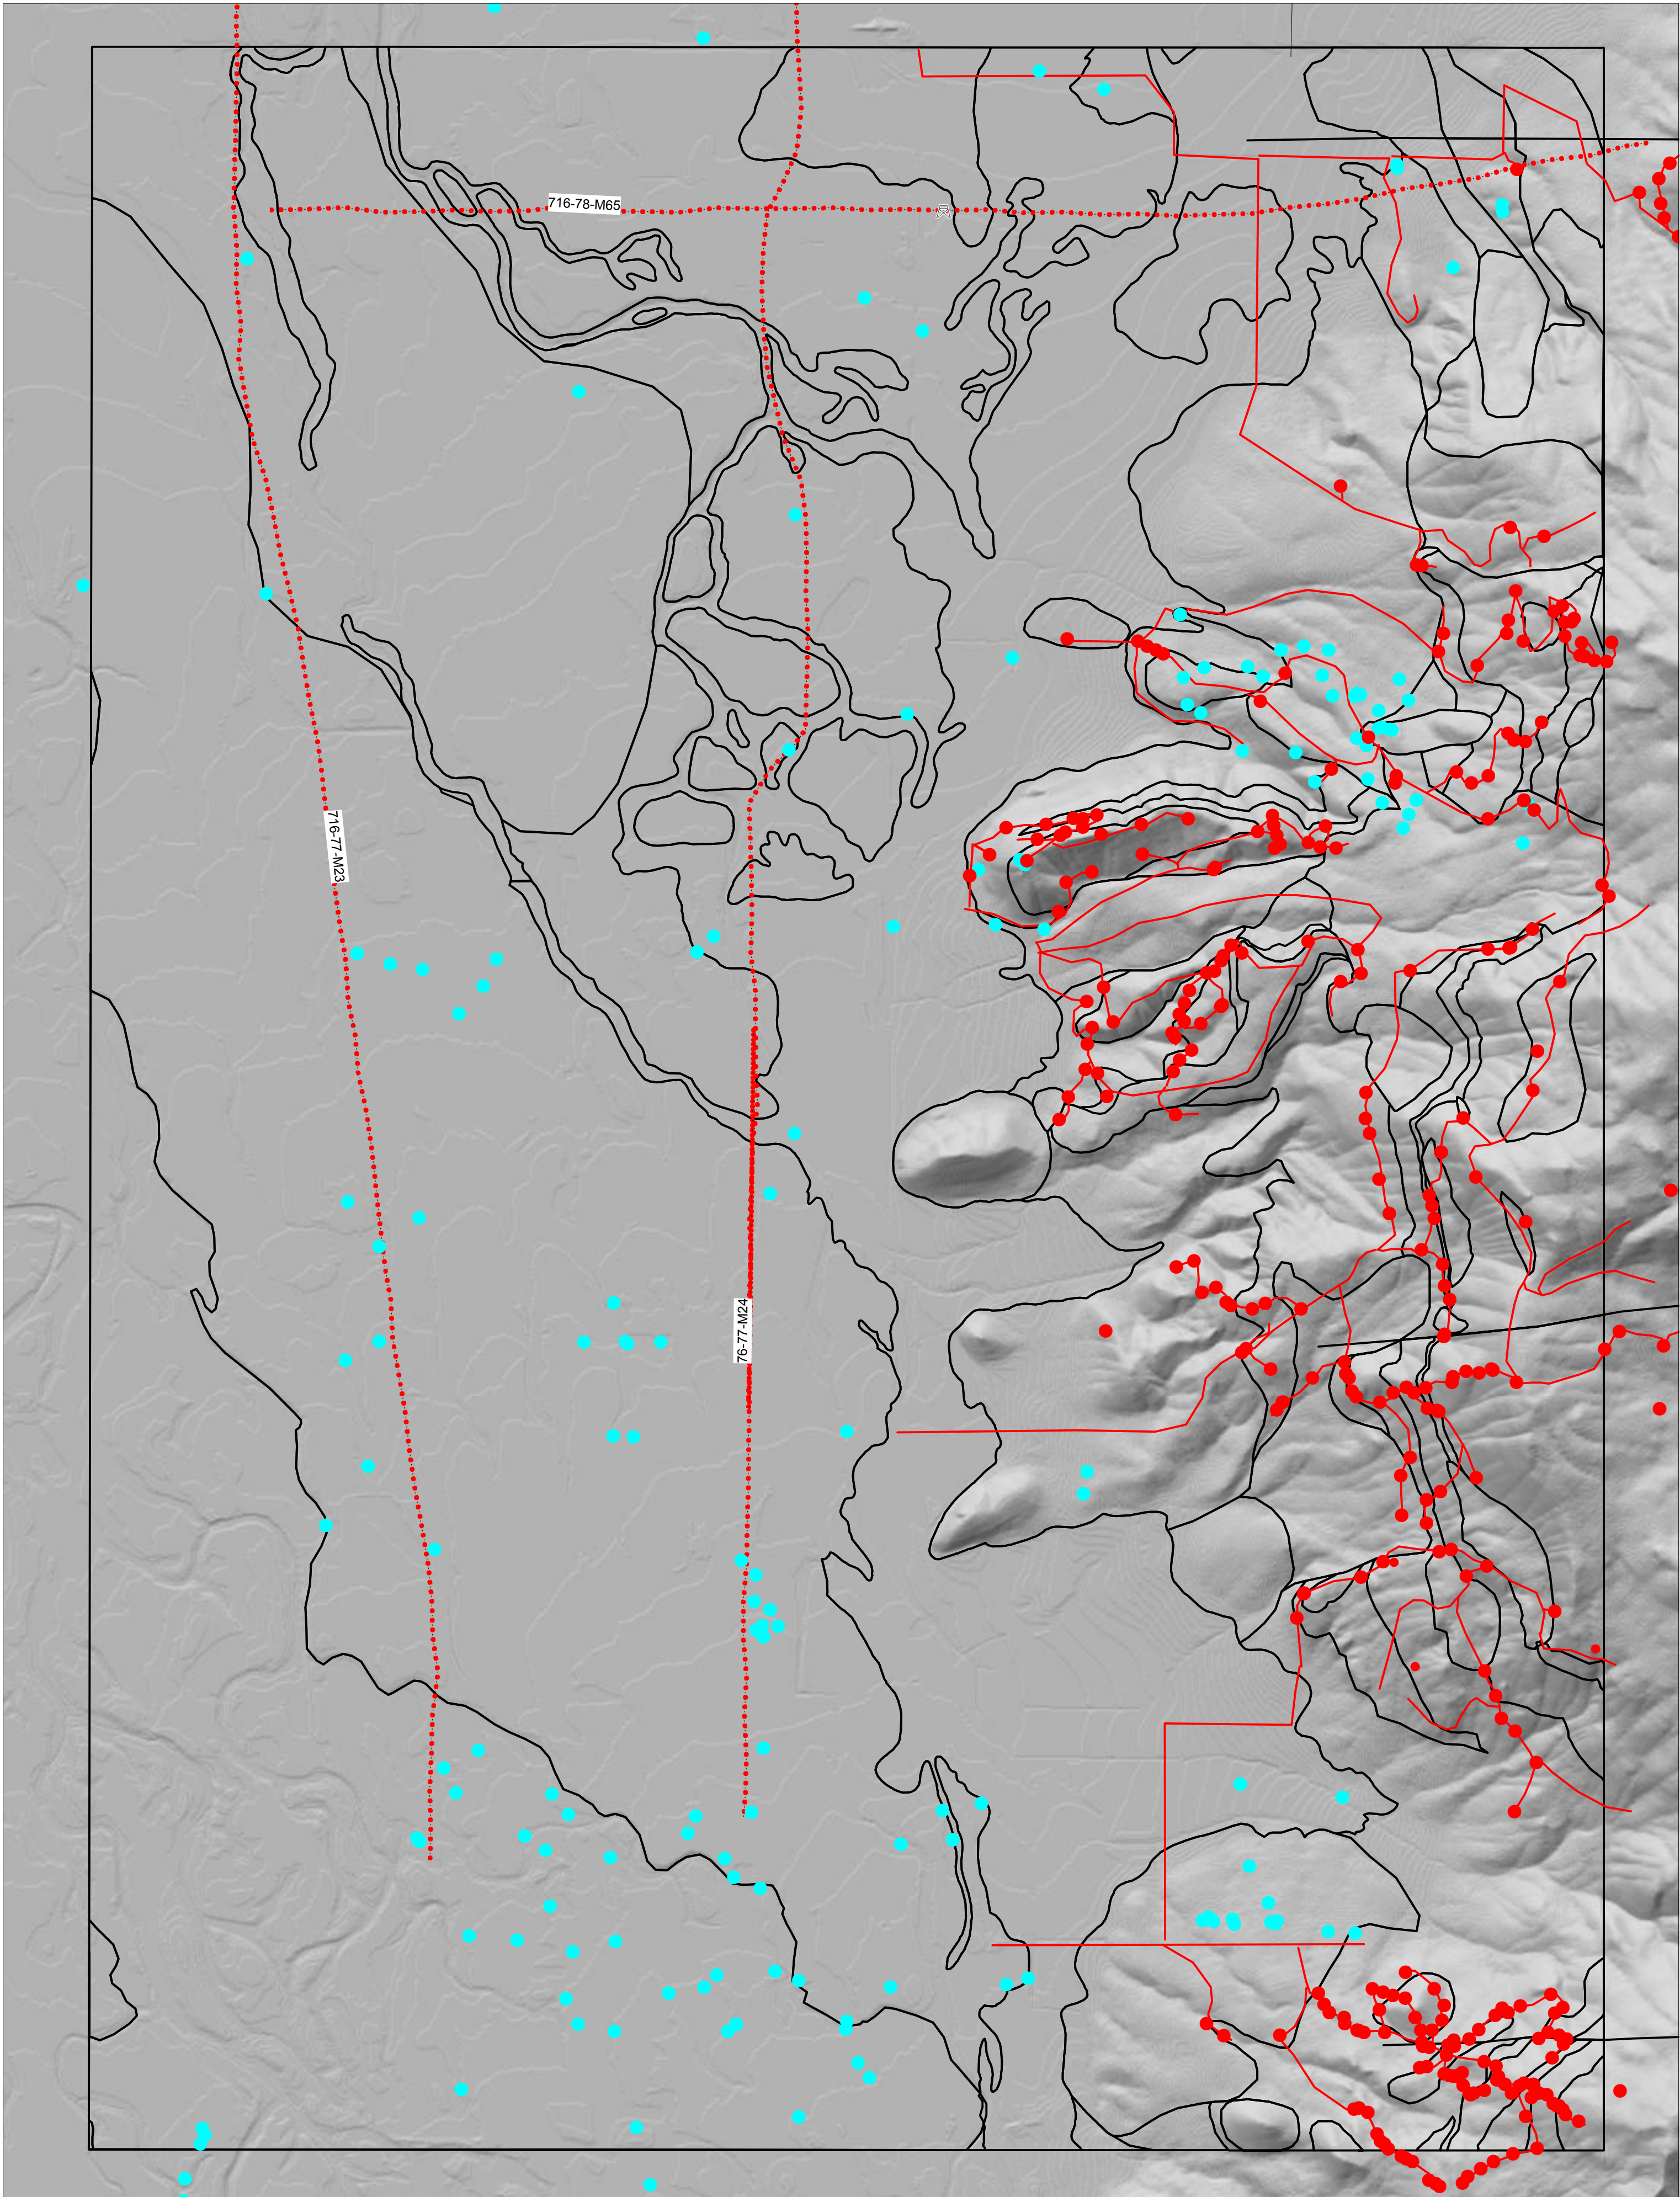

Aeromagnetic Map. Geology shown in white outline

Interpreted Seismic Lines. Prominent reflectors traced off of scanned images of time sections, roughly scaled to depth using average velocity at 1 second TWTT.

By Ian P. Madin, Robert. B. Murray and Frank R. Hladky
Oregon Department of Geology and Mineral Industries
Dr. Vicki S. McConnell, State Geologist

Funded by the State of Oregon and the U.S. Geological Survey
through the STATEMAP portion of the National Cooperative
Geologic Mapping Program under assistance Award # 03HQAO0070.
