

Preliminary Geologic Map of the Eugene East and Eugene West Quadrangles, Lane County, Oregon.

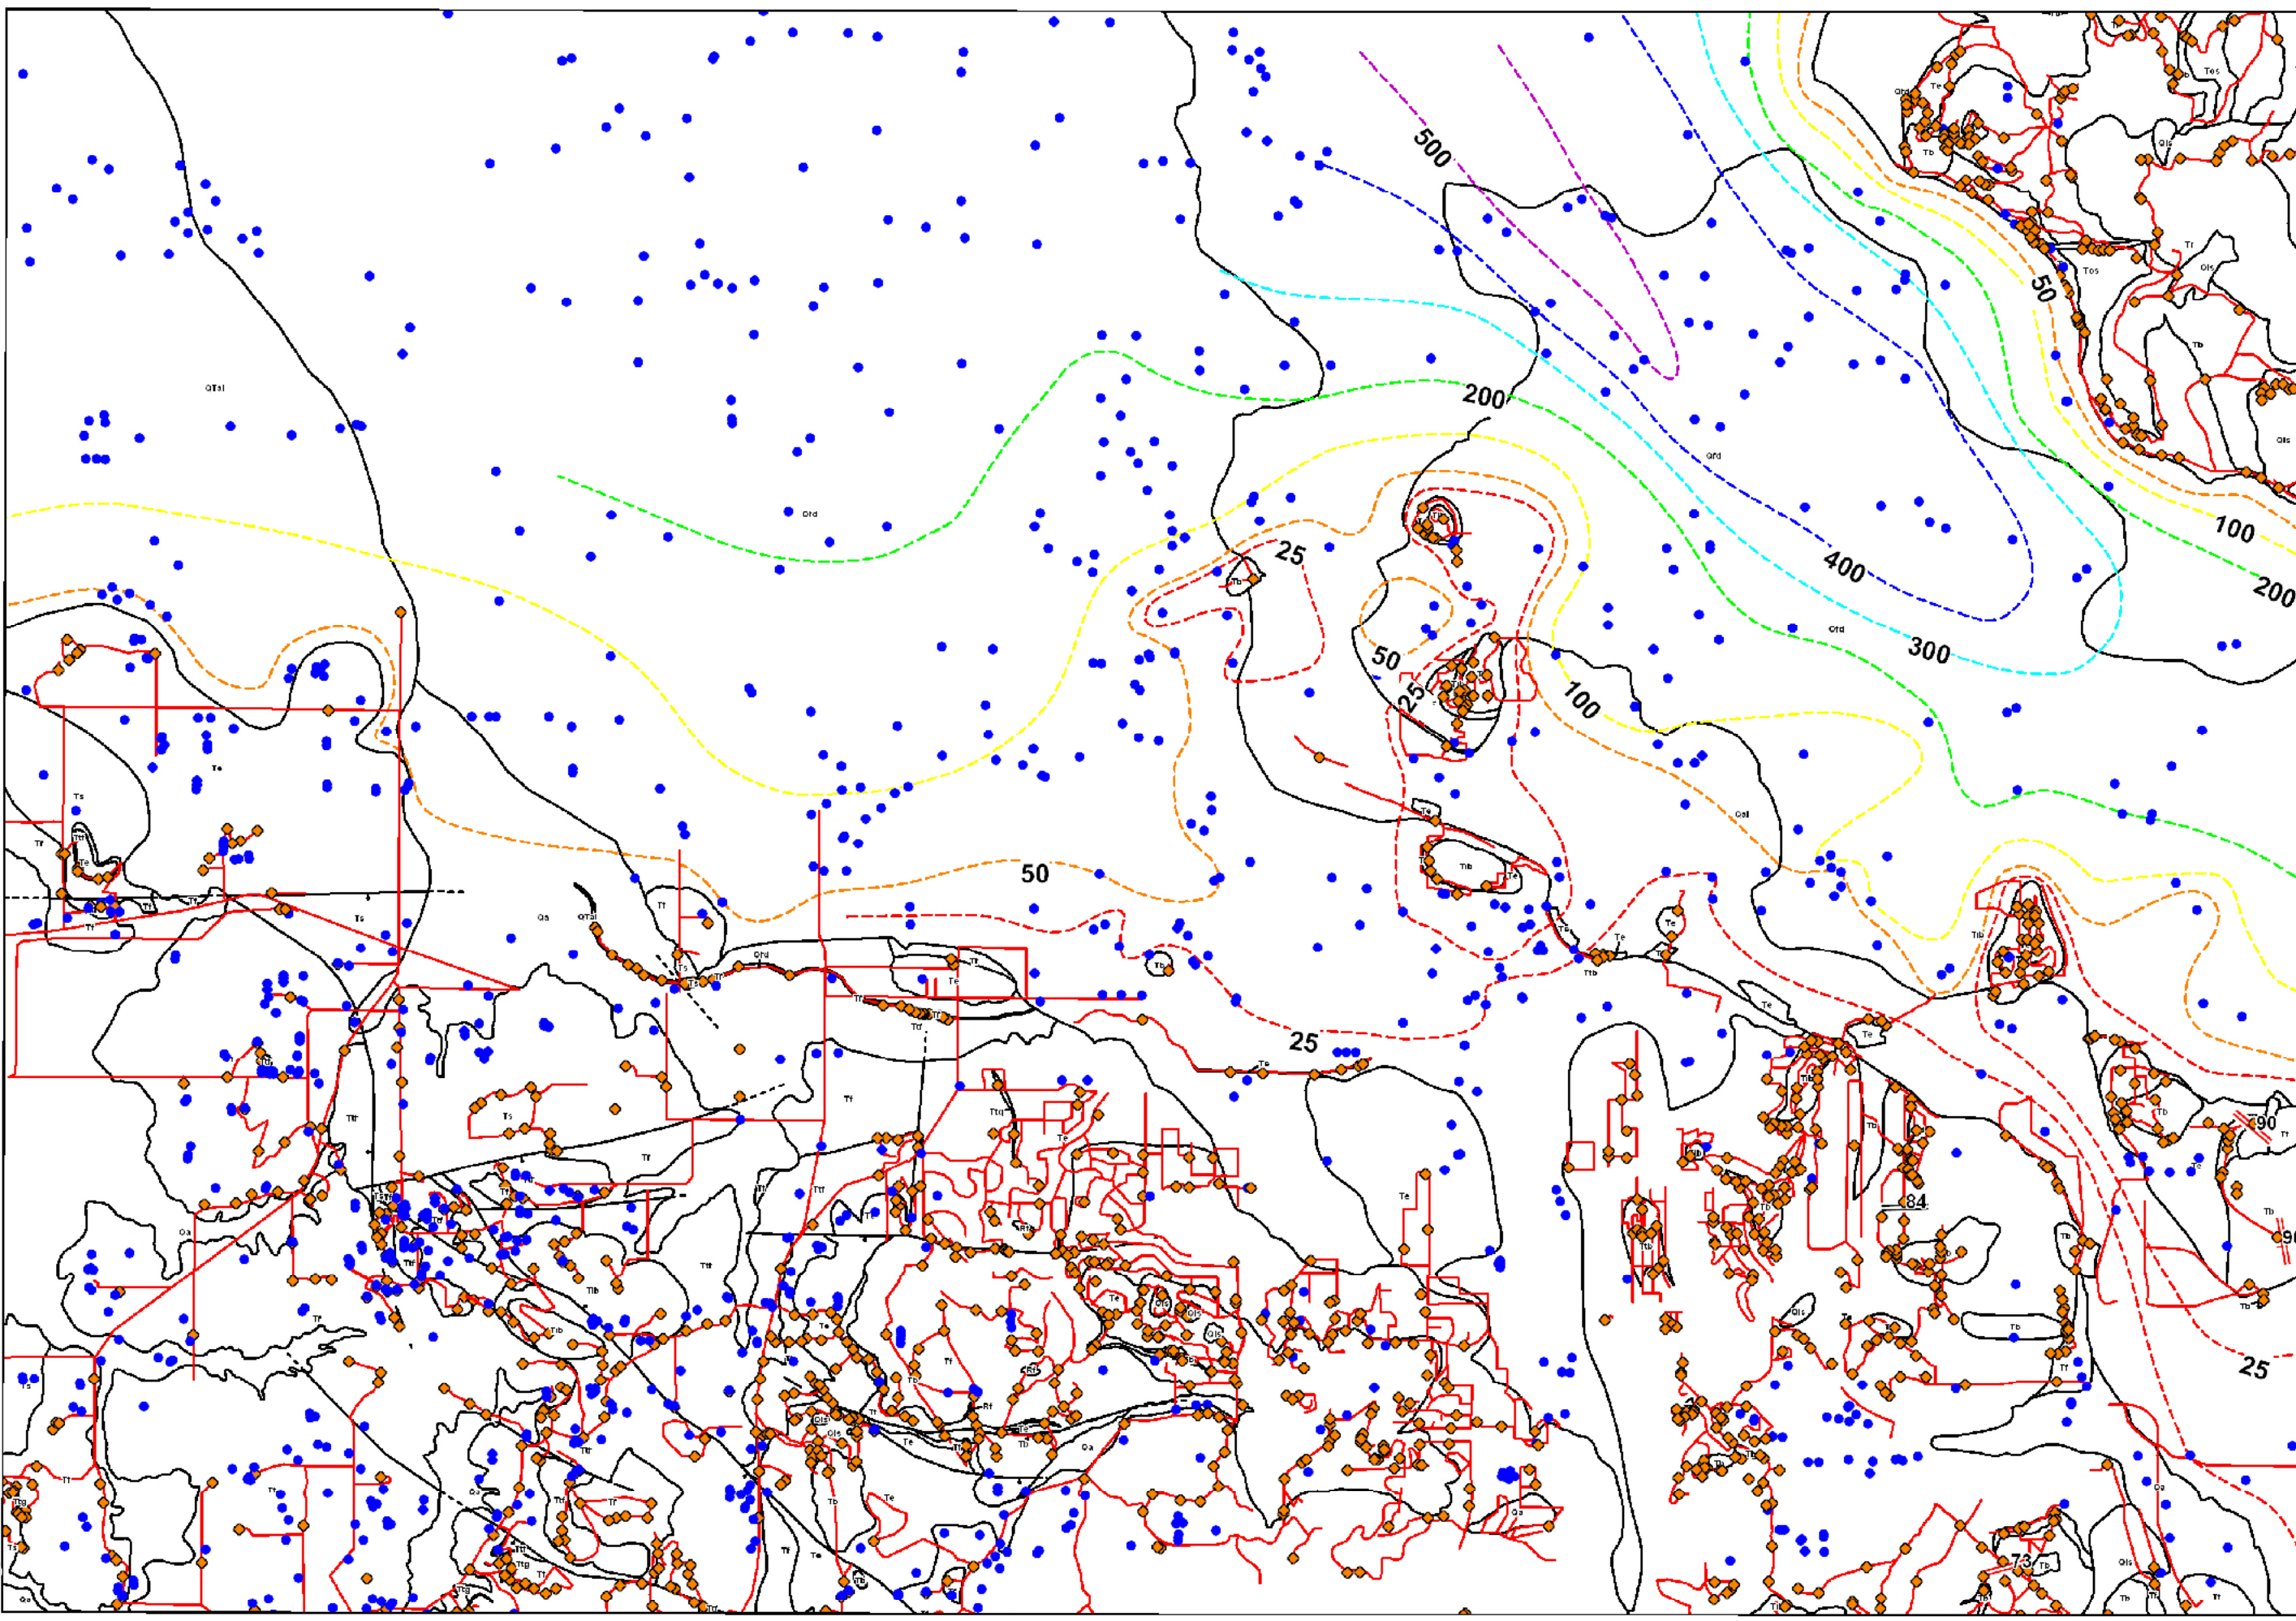

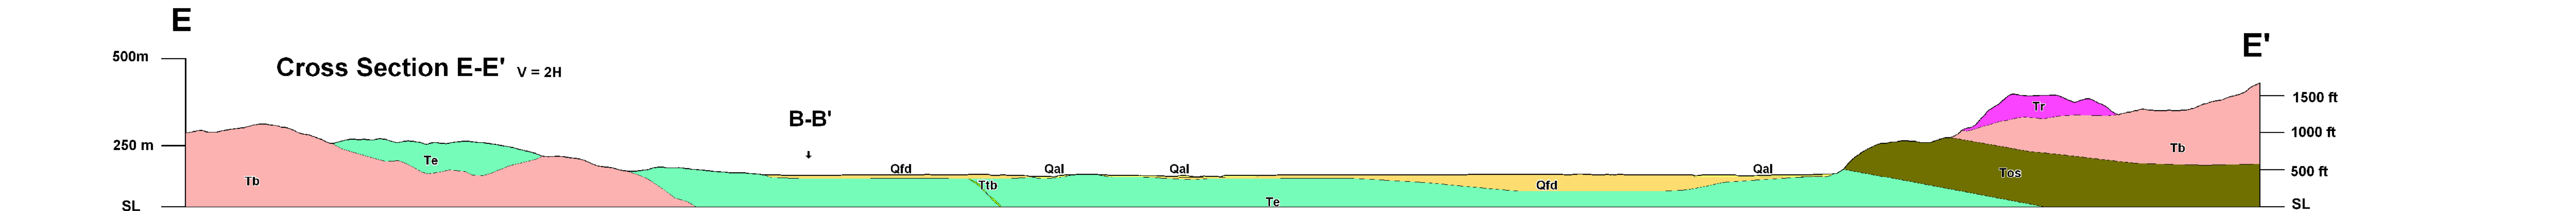

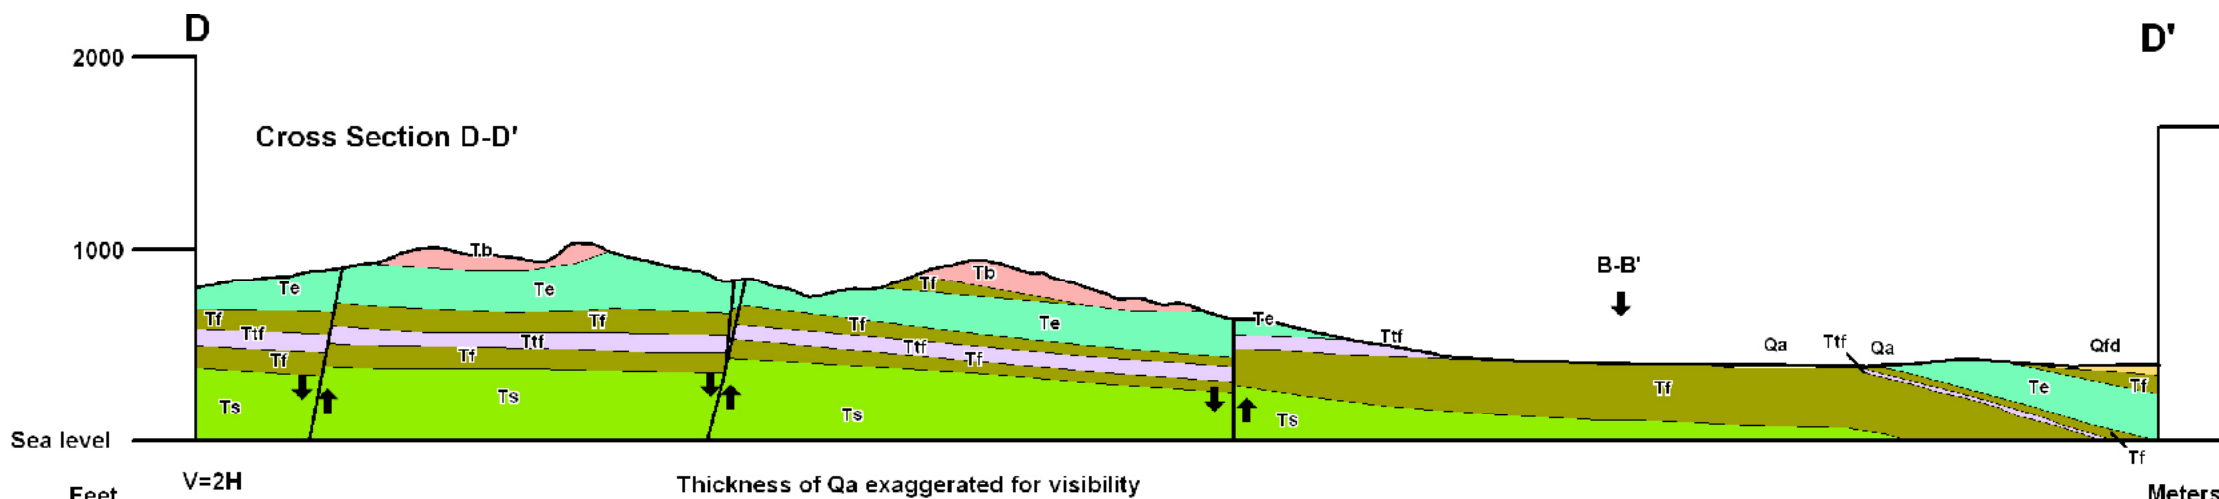

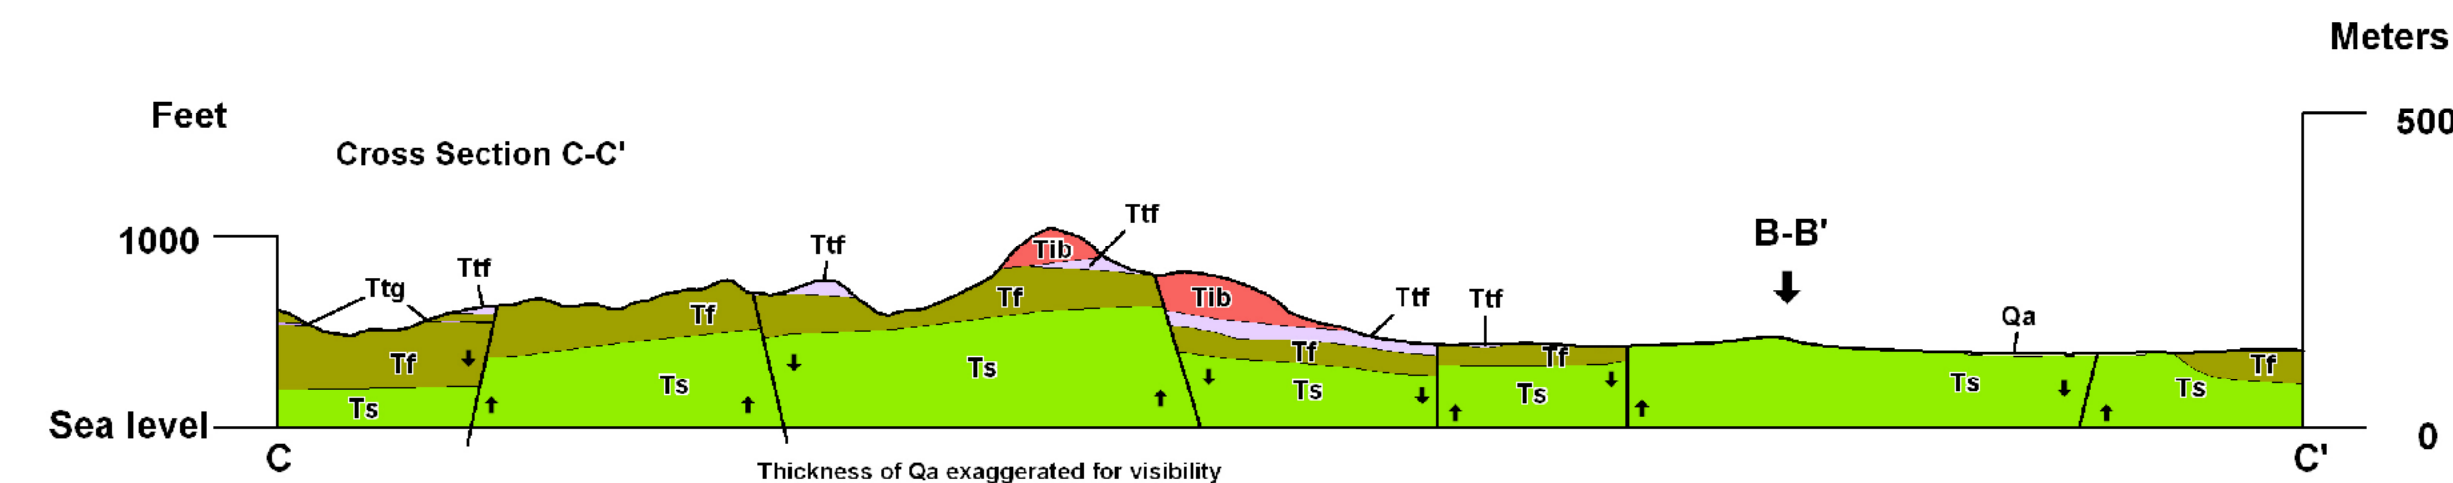

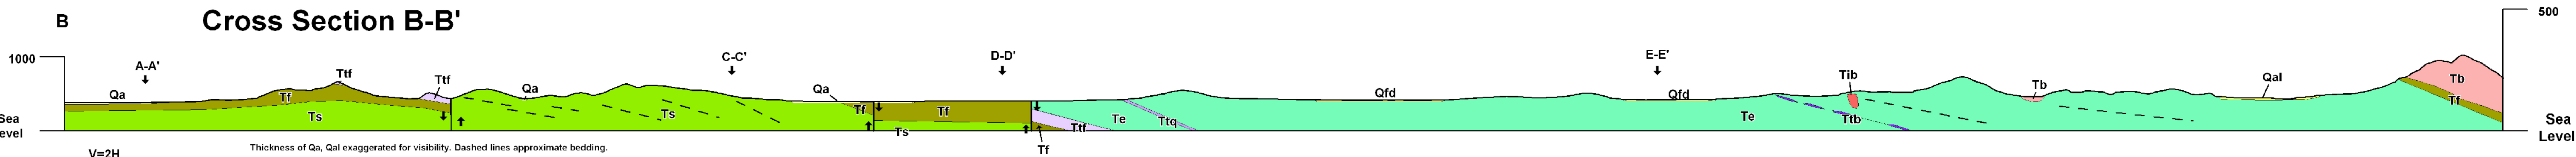

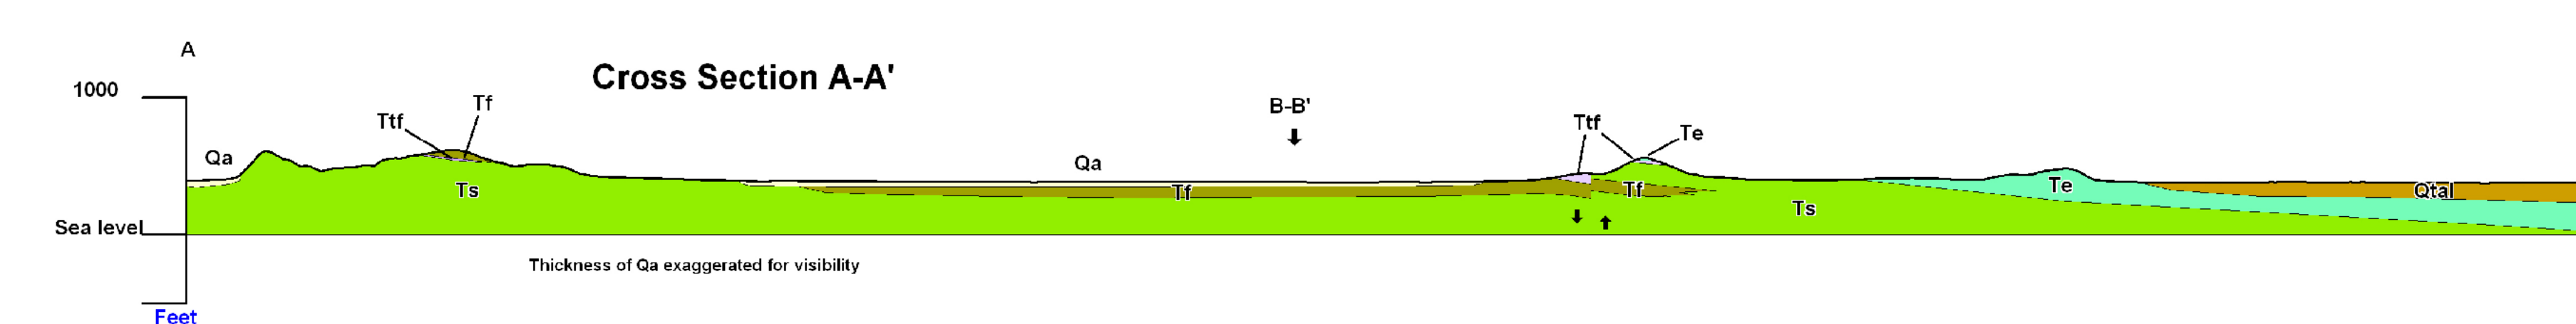

Open-File Report OFR O-06-17 (originally issued as part of OFR O-03-11)
By Ian P. Madin and Robert B. Murray, Oregon Department of Geology and Mineral Industries
Dr. Vicki McConnell, Acting State Geologist.

TIME ROCK CHART

After Berggren and others, 1985

Data Map. Dark lines are geology polygons, red lines are traverses made during mapping. Orange diamonds are field stations, blue dots are located water wells. Dashed colored lines are contours on the top of bedrock beneath Quaternary deposits in feet.

Mapping completed as part of the National Cooperative Geologic Mapping Program and partially funded by the U.S. Geological Survey under assistance award #02HQAG2037
